

Kanchanaburi Multi-day Programme

Our comprehensive training programmes in this province, are based around a Resort on the River Kwai Noi. A relaxing place, rich in historical importance and natural beauty.

We are lucky to have a very diverse variety of outdoor pursuits to offer both inside and outside of the Resort. Naturally, as with all of our programmes, we balance these activities with our own custom designed training sessions. We realise that the team-building and management/leadership training skills are important, while at the same time understanding that the fun elements will reinforce the learning experience. The Kanchanaburi programme was our first and is still our most popular programme by far.

For many of the corporations we work with, English is the only common language spoken. The AMA programmes are generally conducted in English, though we have native Thai facilitators on hand to help with translations/explanations where they are necessary.

There is always safety equipment used where necessary. Many of the adventure activities can be conducted within the safe confines of the Resort itself
